

Employee Onboarding Guide

A practical checklist for new employees during their first weeks at Southern Cross Technology.

Internal Company Document | Version 1.0 | Effective: 1 September 2026

1. Before Day One

- People & Culture sends the employment documentation and onboarding instructions.
- IT prepares the required laptop, company account, MFA setup and access to approved applications.
- The hiring manager prepares the role plan, first-week meetings and required team introductions.

2. Day One

- Complete identity and employment checks required by People & Culture.
- Collect or receive the company laptop and confirm that security controls are active.
- Sign in to the company identity platform and enrol in MFA.
- Meet the manager and team, review the role responsibilities and confirm the first-week schedule.

3. IT Setup Checklist

- Confirm company email access.
- Confirm access to collaboration tools and required business applications.
- Confirm VPN or remote-access configuration if required.
- Confirm endpoint protection and operating-system update status.
- Bookmark the IT support channel and learn how to report an incident.

4. Security Training

- Complete mandatory security awareness training.
- Review the Information Security Policy and IT Policy.
- Learn how to identify phishing, suspicious MFA prompts and accidental data disclosure.
- Never share passwords or MFA codes with another person.

5. First Week

- Review the Employee Handbook and understand working hours, attendance and workplace expectations.
- Meet key stakeholders and understand how the team communicates.
- Set up access to required repositories, dashboards and documentation.
- Agree on initial priorities and expected outcomes with the manager.

6. First 30 Days

- Complete role-specific training.
- Understand the team's key systems, processes and escalation paths.
- Document common tasks and questions for future reference.
- Have a check-in with the manager to review progress and identify support needed.

7. First 90 Days

- Demonstrate independent execution of core responsibilities appropriate to the role.
- Complete outstanding mandatory training.
- Review goals and development areas with the manager.
- Provide onboarding feedback to People & Culture.

8. Common Contacts

Manager	Role priorities, workload, team processes and performance questions.
IT Support	Accounts, devices, software, connectivity and technical incidents.
People & Culture	Employment conditions, leave, workplace concerns and employee records.
Security Team	Security incidents, suspicious messages, data exposure and access concerns.
